

BoothFlow Application

About This Guide

This user guide provides step-by-step instructions for using the BoothFlow application. It covers all three user portals — Booth Representative, Manager, and Admin — and is intended to help users navigate the system effectively during Dell Technologies Forum Singapore.

Who Is This Guide For?

- Booth Representatives — scanning QR codes and capturing leads
- Managers — monitoring team performance and managing follow-ups
- Administrators — managing users, teams, and system settings

How to Use This Guide

Each section follows a consistent format:

- Overview — what the feature does
- Steps — how to perform the action
- Expected Result — what you should see after completing the steps

1. Introduction and System Requirements

BoothFlow is a lead management application designed to help booth representatives capture, qualify, manage, and route customer leads during events and exhibitions. The system improves lead tracking and follow-up efficiency by enabling users to collect customer information, identify customer interests, and assign leads to the appropriate teams.

User Roles:

- Booth Representative
- Manager
- Admin

System Requirements

- Android Phone (Download the APK file)
- Stable internet connection
- Device camera access for QR code scanning
- Valid BoothFlow user account

Booth Representative Portal

2.1 Welcome Screen

Overview

The Welcome Screen is the first page displayed when the BoothFlow application is launched. It provides users with access to the login page.

Steps

1. Launch the BoothFlow application.
2. Review the welcome screen.
3. Tap the **Arrow** button to continue.

Expected Result

The Login page is displayed.

Figure 2.1: Welcome Screen

2.2 Login

Overview

The Login page allows Booth Representatives to securely access the BoothFlow application using their registered account credentials.

Steps

1. Enter your registered **Email Address**.
2. Enter your **Password**.
3. Tap **Login**.

Expected Result

The user is successfully authenticated and redirected to the Dashboard.

Figure 2.2: Login Page

2.3 Dashboard

Overview

The Dashboard provides Booth Representatives with an overview of their lead collection activities and quick access to the QR Code Scanner.

The Dashboard displays:

- QR Code Scanner
- Total Leads Captured
- Lead Summary

Steps

1. Log in to the application.
2. Review the dashboard summary.
3. Tap **QR Code Scanner** to begin capturing a visitor's information.

Expected Result

The Dashboard displays the latest lead statistics and allows the user to access the QR Code Scanner.

Figure 2.3: Dashboard

2.4 Camera Permission

Overview

The Camera Permission screen requests access to the device's camera, which is required to scan visitor QR codes.

Steps

1. Tap **QR Code Scanner**.
2. When prompted, select **Allow**.
3. The message "**Allow BoothFlow to take pictures and record videos?**" will appear.
4. Tap **Allow** to grant camera access.

Expected Result

Camera permission is granted, and the QR Code Scanner opens.

Figure 2.4: Camera Permission

2.5 Scan QR Code

Overview

The QR Code Scanner captures visitor information by scanning the QR code provided during the event.

Steps

1. Position the camera over the visitor's QR code.
2. Wait for the QR code to be detected automatically.
3. The system processes scanned information.

Expected Result

The visitor's QR code is successfully scanned, and the application proceeds to retrieve the visitor's information.

Figure 2.5: QR Code Scanner

2.6 Retrieve Lead Information

Overview

After scanning the QR code, BoothFlow automatically retrieves the visitor's information. The Booth Representative can review the details before submitting the lead.

The retrieved information includes:

- Full Name
- Company
- Job Title
- Email Address
- Phone Number
- Primary Interest

The representative may also:

- Select additional interests
- Choose the customer's intent
- Add notes if required

Steps

1. Review the retrieved visitor information.
2. Verify that all details are correct.
3. Update the customer's interests or intent if necessary.
4. Add any additional notes.
5. Proceed to submit the lead.

Expected Result

The visitor's information is displayed correctly and is ready for submission.

2.7 Submit Lead Information

Overview

The Submit function saves the visitor's information and routes the lead to the appropriate sales team for follow-up.

Steps

1. Review all lead information.
2. Confirm that the visitor has provided consent.
3. Tap **Submit**.

Expected Result

The lead is successfully saved, and the system assigns it to the appropriate team.

2.8 AI Follow-Up Recommendations

Overview

After the lead has been submitted, BoothFlow generates AI-powered recommendations to assist with customer follow-up.

The page displays:

- Assigned Team
- Customer Intent
- Customer Interests

- AI Follow-Up Recommendation
- Suggested Next Actions

Steps

1. Review the AI-generated recommendations.
2. Confirm the assigned team.
3. Read the suggested follow-up actions.
4. Return to the Dashboard or continue managing leads.

Expected Result

The Booth Representative receives AI-generated recommendations to support effective customer follow-up.

Figure 2.8: AI Follow-Up Recommendations

2.9 Manage Leads

Overview

The Manage Leads page allows Booth Representatives to search, view, and manage all submitted leads.

Available functions include:

- Search Leads
- View Lead Details
- Update Lead Information
- Filter Leads

Steps

1. Open **Manage Leads** from the navigation menu.
2. Browse the list of submitted leads.
3. Use the search bar or filters to locate a specific lead.
4. Select a lead to view or update its details.

Expected Result

The selected lead information is displayed and can be managed successfully.

Figure 2.9: Manage Leads

2.10 View Lead Details

Overview

The **View Lead Details** page allows Booth Representatives to review the complete information of a selected lead after it has been submitted. This helps users verify customer information, review lead qualifications, and access AI-generated follow-up recommendations.

The page displays:

- Customer Name
- Company
- Job Title
- Email Address
- Phone Number
- Primary Interest and Additional Interests
- Customer Intent
- Ai confidence
- Assigned Team
- AI Follow-Up Recommendations

Steps

1. Navigate to the **Manage Leads** page.
2. Browse or search for the desired lead.
3. Select the lead.
4. Tap **View** to display the lead details.

Expected Result

The complete lead information is displayed, allowing the Booth Representative to review the customer's details and follow-up recommendations.

Figure 2.10: View Lead Details

2.11 Update Lead Details

Overview

The **Update Lead Details** page allows Booth Representatives to modify lead qualification information after a lead has been submitted. This ensures that customer interactions remain up to date while protecting important personal information.

The following fields can be updated:

- Customer Intent
- Additional Notes
- Lead Status (if applicable)

The following fields cannot be modified:

- Customer Name
- Company
- Email Address
- Phone Number

Steps

1. Navigate to the **Manage Leads** page.

2. Locate the lead to be updated.
3. Tap **Edit**.
4. Modify the required lead qualification details.
5. Tap **Save** to confirm the changes.

Expected Result

The updated lead information is successfully saved, and the latest changes are reflected in the lead record.

Figure 2.11: Update Lead Details

The screenshot shows a mobile application interface for managing leads. At the top, there's a 'My Leads' header with a back arrow, a search icon, and a count of 4. Below the header, there are tabs for 'All 17', 'URGENT 4', 'FOLLOW-UP 4', and 'NEW'. A lead card for 'Nurul Ain Binte I...' is visible, showing 'Cloud Architect - DB...' and an 'Immediate Follow-up' status. Below this, a modal titled 'Update Lead' is open. It contains a lock icon and text: 'Personal details are locked for data protection (PDPA)'. The 'Name' field is 'Nurul Ain Binte Ismail' and the 'Company' field is 'DBS Bank'. Under 'CUSTOMER INTENT', the selected option is 'High - Ready for follow-up'. The 'ADDITIONAL NOTES' section contains the text: 'High intent lead interested in Service, AI-PCs, Multi-cloud. Recommend immediate follow-up to discuss Service, AI-PCs, Multi-cloud solutions and schedule a product demonstration.' At the bottom of the modal are 'Cancel' and 'Save' buttons. The 'Save' button is highlighted in blue.

2.12 Activity Analytics

Overview

The **Activity Analytics** page provides Booth Representatives with a visual summary of their lead collection performance throughout the event.

The dashboard includes:

- Total Leads Captured
- Lead Summary
- **Line graph** showing lead collection trends
- **Number of leads collected during each two-hour time slot**

Steps

1. Navigate to **Activity Analytics**.
2. Review the dashboard statistics.
3. Analyse the line graph to identify lead collection trends.
4. Monitor the number of leads captured during each two-hour time slot.

Expected Result

The Activity Analytics page displays performance metrics that help Booth Representatives monitor lead collection trends and identify peak activity periods.

Figure 2.12: Activity Analytics Dashboard

3. Manager Portal

3.1 Login

Overview

The Login page allows Managers to securely access the BoothFlow Manager Portal using their registered account credentials.

Steps

1. Enter your registered **Email Address**.
2. Enter your **Password**.
3. Tap **Login**.

Expected Result

The Manager is successfully authenticated and redirected to the Dashboard.

Figure 3.1: Login Page

3.2 Dashboard

Overview

The Dashboard is the default landing page displayed after a Manager successfully logs in. It provides a real-time overview of the team's lead performance and offers quick access to key management features.

The Dashboard displays:

- Total Team Leads
- Performance Chart (Bar, Line and Pie Chart views)
- Lead Status Summary
- Lead Breakdown by Status
- Quick Access shortcuts to Leads, Activity, Emails and Export

Steps

1. Log in to the BoothFlow Manager Panel.

2. Review the **Total Team Leads** displayed at the top of the Dashboard.
3. Swipe left or right on the **Performance Chart** to switch between the Bar Chart, Line Chart and Pie Chart views.
4. Review the **Lead Status** cards to monitor the number of New, Follow-Up and Urgent leads.
5. View the **Breakdown** section for a detailed summary of each lead category.
6. Tap the **Quick Access** icons or use the bottom navigation bar to access the Leads, Activity, Emails or Export modules.

Expected Result

The Dashboard displays the latest team lead statistics, performance charts and lead status information, allowing Managers to quickly monitor team performance and navigate to other management features.

Figure 3.2: Manager Dashboard

3.3 View Performance Charts

Overview

Managers can analyse team performance using different chart visualisations available on the Dashboard.

Available chart types include:

- Bar Chart (Leads Overview)
- Line Chart (Leads Trend)
- Pie Chart (Leads Distribution)

Steps

1. Navigate to the Dashboard.
2. Swipe left or right across the Performance Chart.
3. View the selected chart.

Expected Result

The selected chart is displayed, allowing Managers to analyse lead performance from different perspectives.

Figure 3.3: Performance Charts

3.4 View Team Leads

Overview

The Team Leads page displays all leads captured by the team. Managers can search, filter and review lead information.

Available functions include:

- Search Leads
- Filter Leads by Status
- Edit Follow-Up Status
- View Lead Details

Steps

1. Tap **Leads** from the bottom navigation bar.
2. Browse the list of captured leads.
3. Use the search bar or status filters to locate a specific lead.

Expected Result

The selected lead is displayed and available for further management.

Figure 3.4: Team Leads

3.5 Update Follow-Up Status

Overview

Managers can update the follow-up progress of a lead to reflect its current status.

Available options include:

- Pending
- Done
- Cancelled

Steps

1. Select **Edit Follow-Up** for the desired lead.
2. Choose the appropriate follow-up status.
3. Tap **Done** to confirm the update.

Expected Result

The selected follow-up status is successfully updated.

Figure 3.5: Update Follow-Up Status

3.6 View Lead Details

Overview

The View Details page displays complete information about a selected lead.

The information includes:

- Email Address
- Phone Number
- Customer Intent
- Follow-Up Progress
- AI Confidence
- AI Notes
- Scanned By
- Captured Date and Time

Steps

1. Tap **View Details** on the selected lead.
2. Review the lead information.
3. Tap **Close** to return to the Team Leads page.

Expected Result

The complete lead profile is displayed successfully.

Figure 3.6: View Lead Details

3.7 Activity Logs

Overview

The Activity Logs page records all follow-up activities and communications performed for team leads.

Managers can review:

- Follow-up Emails
- Activity History
- Communication Records
- Event Invitations

Steps

1. Tap **Activity** from the navigation bar.
2. Browse the activity records.
3. Review the selected activity.

Expected Result

The complete activity history is displayed.

Figure 3.7: Activity Logs

3.8 Email Follow-Ups

Overview

The Email Follow-Ups page allows Managers to schedule and manage follow-up emails for leads.

The page displays:

- Total Emails Sent
- Emails Sent This Week
- Overdue Follow-Ups

- Selected Lead Information

Steps

1. Tap **Emails** from the navigation bar.
2. Select a lead.
3. Choose the follow-up date and time.
4. Tap **Schedule Follow-Up**.

Expected Result

The follow-up email is successfully scheduled.

Figure 3.8: Email Follow-Ups

3.9 Reset Follow-Up

Overview

Managers can reset a completed follow-up, allowing a new follow-up email to be sent to the selected lead.

Steps

1. Select a lead whose follow-up has already been completed.
2. Tap **Reset**.
3. Confirm the action by selecting **Reset** in the confirmation dialog.

Expected Result

The follow-up status is reset to **Pending**, allowing another email to be scheduled.

Figure 3.9: Reset Follow-Up

3.10 Resend Follow-Up Email

Overview

After resetting a follow-up, Managers can resend the follow-up email to the selected lead.

Steps

1. Schedule the new follow-up.
2. Tap **Schedule Follow-Up**.
3. Wait for the confirmation message.

Expected Result

The system confirms that the follow-up email has been resent successfully.

Figure 3.10: Resend Follow-Up Email

3.11 Export Leads

Overview

The Export Leads page allows Managers to export all captured team leads for reporting purposes.

Available options include:

- Preview JSON
- Download Excel

Steps

1. Tap **Export**.
2. Select **Preview JSON** to preview lead data or **Download Excel** to export the report.

Expected Result

The selected export option is completed successfully.

Figure 3.11: Export Leads

3.12 Download Excel Report

Overview

Managers can download all team leads as a Microsoft Excel spreadsheet for reporting and analysis.

Steps

1. Tap **Download Excel**.
2. Wait for the report to be generated.
3. Select the generated Excel file.

Expected Result

The Excel report is successfully generated and downloaded.

Figure 3.12: Download Excel Report

3.13 Upload Report to Google Drive

Overview

Managers can upload the exported Excel report directly to Google Drive for backup or sharing.

Steps

1. Select the exported Excel file.
2. Choose **Upload to Drive**.
3. Select the destination folder.
4. Tap **Upload**.

Expected Result

The Excel report is successfully uploaded to the selected Google Drive location.

Figure 3.13: Upload Report to Google Drive

3.14 View Uploaded Report

Overview

After the upload is complete, Managers can verify that the exported report is available in Google Drive.

Steps

1. Open Google Drive.
2. Navigate to the selected folder.
3. Locate the uploaded Excel report.

Expected Result

The exported report is successfully stored in Google Drive and is available for viewing or sharing.

Figure 3.14: Uploaded Excel Report

3.15 View Exported Excel Report

Overview

The exported Excel report contains all captured lead information and can be used for reporting, analysis, and record keeping.

The report may include:

- Lead ID
- Name
- Company
- Job Title
- Email Address
- Lead Status

Steps

1. Open the exported Excel file.
2. Review the lead information.
3. Use the report for analysis or sharing.

Expected Result

The Excel report displays all exported lead information successfully.

4. Admin Portal

4.1 Login

Overview

The Login page allows Administrators to securely access the BoothFlow Admin Portal using their registered account credentials.

Steps

1. Enter your registered **Email Address**.
2. Enter your **Password**.
3. Tap **Login**.

Expected Result

The Administrator is successfully authenticated and redirected to the Admin Dashboard.

Figure 4.1: Login Page

4.2 Dashboard

Overview

The Dashboard provides Administrators with a system-wide overview of BoothFlow and quick access to administrative functions.

The Dashboard displays:

- Total Leads
- Qualified Leads
- Contacted Leads
- New Leads
- User Accounts
- Teams

Steps

1. Log in to the Admin Portal.
2. Review the system overview.
3. Select the required management module.

Expected Result

The Dashboard displays the latest system statistics and administrative options.

Figure 4.2: Admin Dashboard

4.3 View User Accounts

Overview

The User Accounts page allows Administrators to view and manage all registered users within the BoothFlow system.

The page displays:

- Full Name
- Email Address
- User Role
- Assigned Team
- Account Status

Steps

1. Select **Users** from the navigation bar.
2. Browse the list of registered users.
3. Search for a specific user if required.

Expected Result

The list of user accounts is displayed successfully.

Figure 4.3: User Accounts

4.4 Create User

Overview

Administrators can create new user accounts for Booth Representatives, Managers, or Administrators.

Steps

1. Tap the **+** button.
2. Enter the user's details.
3. Select the appropriate **Role**.
4. Assign the user to a team.
5. Tap **Create**.

Expected Result

The new user account is successfully created.

Figure 4.4: Create User

The screenshot shows a mobile application interface for managing user accounts. At the top, there's a header 'User Accounts' with a back arrow, a profile icon, a 'CSV' button, and a '+' button. Below the header, two user cards are visible: 'sahanasri' (sahana@rp.gmail.com, REP, Active) and 'Test User' (test.user@dell.com, REP, Active). Each card has edit, share, and delete icons. Below the user list is a 'Create User' form. The form has the following fields and options:

- FULL NAME:** A text input field containing 'Roshan'.
- EMAIL:** A text input field containing 'roshan@gmail.com'.
- PASSWORD:** A password input field with a strength indicator (a green circle) and a visibility toggle (an eye icon).
- ROLE:** Three buttons: 'REP', 'MANAGER' (selected), and 'ADMIN'.
- ASSIGN TEAM:** Five buttons: 'T1', 'T2', 'T3', 'T4' (selected), and 'T5'.
- Buttons:** 'Cancel' and 'Create' at the bottom.

4.5 Edit User

Overview

The Edit User page allows Administrators to update an existing user's information.

Editable information includes:

- Full Name
- Email Address
- Password
- Account Status
- User Role
- Assigned Team

Steps

1. Select the desired user.
2. Tap **Edit**.

3. Update the required information.
4. Tap **Save**.

Expected Result

The selected user's information is updated successfully.

Figure 4.5: Edit User

4.6 View User Details

Overview

The User Details page displays complete information about the selected user.

The information includes:

- Full Name
- Email Address
- User Role

- Account Status
- User ID

Steps

1. Select **View** on a user account.
2. Review the displayed information.

Expected Result

The selected user's details are displayed successfully.

Figure 4.6: View User Details

4.7 View All Leads

Overview

The **All Leads** page allows Administrators to view and manage every lead captured across all teams within the BoothFlow system. Leads are organised by their assigned teams, making it easier to monitor and manage team-specific lead information.

The page displays:

- Total Number of Leads
- Team Name
- Number of Leads Assigned to Each Team
- Customer Name
- Job Title
- Company
- Lead Status
- **Edit** and **View** options

Steps

1. Select **Leads** from the bottom navigation bar.
2. Browse the list of teams and their assigned leads.
3. Select a team to view its captured leads.
4. Tap **View** to review the lead details or **Edit** to update the lead information.

Expected Result

The selected team's leads are displayed successfully, allowing the Administrator to view and manage lead information.

Figure 4.7: All Leads

4.8 Edit Lead

Overview

The **Edit Lead** page allows Administrators to update an existing lead's information. This feature ensures that lead details remain accurate and up to date throughout the lead management process.

Administrators can update the following information:

- Name
- Company
- Email Address
- Lead Status
- Customer Intent
- Primary Interest
- Additional Interests

- AI Notes (Override)

Steps

1. Navigate to the **All Leads** page.
2. Locate the lead you wish to update.
3. Tap the **Edit** button.
4. Modify the required information.
5. Tap **Save** to apply the changes, or tap **Cancel** to discard the changes.

Expected Result

The selected lead information is successfully updated, and the latest details are reflected in the **All Leads** list.

Figure 4.8: Edit Lead

The screenshot shows the 'Edit Lead' interface. At the top, there's a header bar with a back arrow, 'All Leads', and a '+ Add' button. Below this, the lead's details are shown in a card: Name (Ethan Koh), Company (Sea Group), Email (ethan.koh@sea.com), and Primary Interest (High - Ready for follow-up). The 'STATUS' section has four buttons: NEW (red), FOLLOW-UP (orange), URGENT (green), and CLOSED (blue). The 'CUSTOMER INTENT' section has a dropdown menu currently set to 'High - Ready for follow-up'. The 'INTERESTS' section has five tags: AI PCs, Multi-cloud, Storage, Service, and Others. The 'AI NOTES (OVERRIDE)' section has a text area containing the note: 'High intent lead interested in Multi-cloud. Recommend immediate follow-up to discuss Multi-cloud solutions and schedule a product demonstration.' At the bottom, there are 'Cancel' and 'Save' buttons.

4.9 Add New Lead

Overview

The **Add New Lead** page allows Administrators to manually create a new lead within the BoothFlow system. This feature is useful when lead information is collected outside the QR code scanning process or needs to be entered manually.

The following information can be entered:

- Full Name
- Email Address
- Company
- Job Title
- Phone Number
- Customer Intent
- Customer Interests

Steps

1. Navigate to the **Leads** page.
2. Tap the **+ Add** button.
3. Enter the lead's **Full Name**.
4. Enter the **Email Address**.
5. Enter the **Company** name.
6. Enter the **Job Title**.
7. Enter the **Phone Number**.
8. Select the **Customer Intent** from the available options.
9. Select one or more **Customer Interests**.
10. Tap **Add Lead** to save the new lead, or tap **Cancel** to discard the changes.

Expected Result

The new lead is successfully created and added to the **All Leads** list, where it can be viewed, edited, or managed.

Figure 4.9: Add New Lead

4.10 Delete Lead

Overview

The **Delete Lead** function allows Administrators to permanently remove a lead from the BoothFlow system. Before the lead is deleted, the system displays a confirmation dialog to prevent accidental deletion.

Note: Deleting a lead is permanent and cannot be undone.

Steps

1. Navigate to the **All Leads** page.
2. Locate the lead you wish to remove.
3. Tap the **Delete** button.
4. Review the confirmation message.
5. Tap **Delete** to permanently remove the lead, or tap **Cancel** to return without making any changes.

Expected Result

The selected lead is permanently deleted from the system and is no longer displayed in the **All Leads** list.

Figure 4.10: Delete Lead

4.11 Manage Teams

Overview

The Teams page allows Administrators to view all existing teams within the BoothFlow system.

The page displays:

- Team Name
- Territory
- Team Description

Steps

1. Select **Teams**.
2. Browse the list of available teams.

Expected Result

The complete list of teams is displayed.

Figure 4.11: Teams

4.12 Edit Team

Overview

Administrators can modify existing team information.

Editable information includes:

- Team Name
- Territory
- Description

Steps

1. Select a team.
2. Tap **Edit Team**.
3. Update the required information.
4. Tap **Save**.

Expected Result

The team's information is updated successfully.

Figure 4.12: Edit Team

4.13 Delete Team

Overview

The **Delete Team** page allows Administrators to permanently remove a team that is no longer required. Before the team is deleted, the system displays a confirmation message to prevent accidental deletion.

Steps

1. Navigate to the **Teams** page.
2. Select the team you wish to remove.
3. Tap the **Delete** button.
4. Review the confirmation message.
5. Tap **Delete** to permanently remove the team, or tap **Cancel** to return without making any changes.

Expected Result

The selected team is successfully deleted and removed from the Teams list.

Figure 4.13: Delete Team

4.14 Create Team

Overview

The **Create Team** page allows Administrators to create a new team within the BoothFlow system. Each team can be assigned a name, territory, and description to help organise Booth Representatives and Managers according to their business function or region.

The following information is required:

- Team Name
- Territory
- Team Description

Steps

1. Navigate to the **Teams** page.
2. Tap the **+** button.
3. Enter the **Team Name**.
4. Select the **Territory**.
5. Enter a brief **Description** for the team.
6. Tap **Create** to save the new team.

Expected Result

The new team is successfully created and added to the Teams list.

4.15 Change Appearance

Overview

The Appearance page allows Administrators to personalise the application's colour theme.

Available themes include:

- Navy
- Matcha
- Dark
- Aurora

Steps

1. Open the **Appearance** settings.
2. Select the preferred theme.
3. The application automatically applies the selected colour theme.

Expected Result

The application's interface is updated with the selected appearance theme.

6. Troubleshooting

Issue	Possible Cause	Solution
Unable to log in	Incorrect email or password	Verify your login credentials and try again. Contact an administrator if the issue persists.
QR Code Scanner does not open	Camera permission denied	Go to your device's Settings → Apps → BoothFlow → Permissions and enable Camera access.
QR Code cannot be scanned	Poor lighting, damaged QR code, or camera not focused	Ensure the QR code is fully visible, improve lighting, and hold the camera steady.
Visitor information is not displayed after scanning	Network connection issue or invalid QR code	Check your internet connection and scan a valid QR code again.
Unable to submit a lead	Required information is missing or network interruption	Complete all mandatory fields, verify customer consent, and ensure you have an active internet connection before submitting.
AI Follow-Up Recommendation does not appear	AI service is still processing or internet issue	Wait a few seconds and refresh the page. If the problem continues, return to the Dashboard and try again.
Changes to lead information are not saved	Save button not selected or network error	Review your updates and tap Save again after confirming a stable internet connection.
Email follow-up cannot be scheduled	Follow-up status already completed or invalid date selected	Reset the follow-up status first, then select a valid future date and schedule the email again.
Excel report cannot be downloaded	Network interruption or insufficient storage	Check your internet connection and ensure there is enough storage space on your device.
Google Drive upload fails	Google account not signed in or internet connection unavailable	Sign in to your Google account, reconnect to the internet, and try uploading again.
Unable to create a new user or team	Required fields are incomplete	Ensure all mandatory fields are completed before selecting Create .
Application becomes slow	unstable internet connection	Refresh the application, reconnect to a stable network, or restart the application.

7. Frequently Asked Questions (FAQ)

Q1. What is BoothFlow?

BoothFlow is a lead management application that enables Booth Representatives to capture visitor information, qualify leads, and route them to the appropriate sales teams during events and exhibitions.

Q2. Who can use BoothFlow?

BoothFlow supports three user roles:

- Booth Representative
- Manager
- Administrator

Each role has different permissions and features.

Q3. Why does BoothFlow request camera permission?

Camera access is required to scan visitor QR codes for automatic lead capture. Without camera permission, the QR Code Scanner cannot function.

Q4. Can I edit a submitted lead?

Yes. Booth Representatives can update customer intent, additional notes, and lead status where applicable. However, customer details such as name, company, email address, and phone number cannot be modified.

Q5. How are leads assigned?

After a lead is submitted, BoothFlow automatically assigns it to the appropriate team based on the customer's information and generates AI-powered follow-up recommendations.

Q6. Can Managers export lead reports?

Yes. Managers can export captured leads by previewing the data in JSON format or downloading it as an Excel report.

Q7. Can exported reports be uploaded to Google Drive?

Yes. Managers can upload exported Excel reports directly to Google Drive for backup or sharing.

Q8. Can Administrators create new users?

Yes. Administrators can create Booth Representative, Manager, and Administrator accounts, assign roles, and allocate users to teams.

Q9. What should I do if I forget my password?

Contact your system administrator to reset your password. For security reasons, passwords cannot be recovered directly through the application.

Q10. What are the minimum system requirements?

BoothFlow requires:

- An Android device with the BoothFlow APK installed
- A stable internet connection
- Camera permission enabled
- A valid BoothFlow user account
